From world-renowned architects Manolo Mestre and Juan Collignon comes Casa Majani. Their holistic approach to architecture pays homage to the natural while incorporating the contemporary. As premiere eco-sensitive designers, both Mestre and Collignon embrace native simplicity and warmth of color to complement modern convenience, providing an alluring and meditative experience. A network of pathways through expansive reflection pools connects each unique structure, creating the illusion that Casa Majani is suspended over the powerful Pacific.

Casa Majani is situated on the northern most tip of Banderas Bay on the Punta Mita peninsula, 40 minutes north of the Puerto Vallarta airport. Located within Mexico's most exclusive beach community along the shores of Riviera Nayarit, Casa Majani is but a five minute walk to the St. Regis Punta Mita Resort and only a few minutes' drive to the Four Seasons Punta Mita Resort.

Punta Mita is a private gated resort community emerging as the newest address of distinction for discriminating vacation travelers. Punta Mita offers high-end infrastructure, security, and world-class amenities such as golf, tennis, and a private Resident's Beach Club. The lush natural beauty of the Sierra Madre Mountains and the crystal blue waters of the Pacific Ocean border this nine-mile stretch of paradise, making it a unique and privileged location.
