Playasola in Puerto Vallarta, the ultimate private getaway!

This 3 acre oceanfront property at the south end of Las Animas beach, has an incredibly unique feature, it's own private sandy beach! Playasola, which literally translates to "lone beach", is the perfect name for this private getaway.

Magnificent rock croppings decorate the sandy beach. On the far south end of Playasola beach, the mountains reach the ocean, making the Playasola beach totally private for it's guests. Huge beachfront palapa, with wetbar, fridge and sound system palapa-mounted. Outdoor kitchen palapa, with full-sized fridge, stove, wetbar and cabinets, to service the beach palapa.

Living room entertainment center includes satellite TV, surround sound system with speakers indoors and on deck, Ipod connection, DVD player and Xbox 360. Villa is fully air-conditioned throughout. Wall of glass doors open to the pool terrace.

Design aspects from Casa La Vista were incorporated in Playasola's design, from the garden staircase, to walls of glass to open up the main areas to the pool deck. Extensive use of stone materials throughout, marble floors, red sandstone staircase walls, cantera decking, and fine stone borders in the bedroom flooring, combine for a feel of natural luxury on the beach!

The house has 3 master bedrooms and two standard bedrooms, each with oceanfront decks and full ensuite baths. The 5th bedroom has two single beds, which can be converted to a king by request.

Upper Level Master Bedroom 3

Upper Level Bedroom 4 & 5
